

MARINE RESCUE NSW
Volunteers saving lives on the water

Coronavirus (COVID-19) information

Measures to protect people & maintain services

Marine Rescue NSW has introduced preventative measures to protect the health and wellbeing of our people and the community while also allowing us to maintain our vital emergency services.

We are continuing our key services to the boating community, including monitoring marine radio and responding to emergencies on the water.

Our base is restricted to all but essential operational members until further notice. If you need to report an emergency, please enter but otherwise, call or email us and we will respond to you as soon as possible.

Please be advised that all our public fundraising, community events, public education courses, unit meetings, recruitment & training have been postponed until further notice.

Thank you for your understanding and cooperation.
